

We've Got to Forgive

©2009 – Mathis-Kaat-Wohlert

If your friends disappoint you, and you don't know what to do,

If they show no respect, and leave you in a stew;

Turn the other cheek, and get on with your life.

Life's too short to carry-one in strife.

We've got to forgive

We've got to forgive each other,

We've got to forgive

If we really want to live,

We've got to forgive

We've got to forgive each other along life's way.

In love and politics, there's no place for a grudge

Give it to the Lord, and let Him be the judge

No one is perfect; it's a roll of the dice.

So love one another, no matter what the price.

We've got to forgive

We've got to forgive each other,

We've got to forgive

If we really want to live,

We've got to forgive

We've got to forgive each other along life's way.
